

Once-daily 40 mg\* Capsules

**ORacea**<sup>®</sup>

(doxycycline, USP) 30 mg immediate release & 10 mg delayed release beads

## Doctor Conversation Starter

Make the most of your doctor visit by doing a little prep work before your appointment!

To get the conversation started, here are five essential questions that you can print out and bring along to your next appointment. Personalize them by adding questions and comments specific to your skin concerns, and you'll be ready for a productive discussion with your healthcare provider.

- How does Oracea<sup>®</sup> work and is it right for me?**

---
- How is Oracea<sup>®</sup> different from other oral and topical medications?**

---
- What can I expect from treatment with Oracea<sup>®</sup>?**

---
- What factors—such as food and beverage, environmental or emotional—may be causing my rosacea?**

---
- What products do you suggest I use for face wash, moisturizer, sunscreen and make-up to avoid aggravating my rosacea?**

---

**Add your own skin-specific questions here:**

### Important Safety Information

You are encouraged to report negative side effects of prescription drugs to the FDA. Log on to [www.fda.gov/Medwatch](http://www.fda.gov/Medwatch) or call 1-800-FDA-1088. Please See Important Safety Information.

The dosage of Oracea<sup>®</sup> differs from that of doxycycline used to treat infections. To reduce the development of resistant bacteria as well as to maintain the effectiveness of other antibacterial drugs, Oracea<sup>®</sup> should be used only as prescribed by your doctor.

Do not take Oracea<sup>®</sup> if you are allergic to any medicine known as a tetracycline, including doxycycline and minocycline. Oracea<sup>®</sup> may cause harm to a developing fetus; do not take Oracea<sup>®</sup> if you are pregnant. Do not take Oracea<sup>®</sup> if you are breastfeeding. Oracea<sup>®</sup> should not be given to infants and children 8 years or younger because it may cause permanent discoloration of the teeth in these age groups.
