

Rosacea SPACE

This **Rosacea Awareness Month** (April) we are creating an immersive experience for the rosacea community all around the world to be **seen, heard and felt**, and to showcase how their rosacea goes beyond the visible

We are inviting the rosacea community, their friends and family to illustrate what rosacea means to them by submitting art, photographs, selfies, poetry, music, videos and even letters to #Rosacea Space*

Creative submissions will be published on Rosacea Space, which is a dedicated site connecting and empowering those impacted by rosacea worldwide
